THE MEMORY OF THE BRAVE

DEDICATION OF A MEMORIAL.

ARCHBISHOP OF DUBLIN'S IMPRESSIVE ADDRESS.

A plain of the Dead art now laid to rest, and the National Cathedral at Patrick yesterday, when the Archbishop of Dublin dedicated a window in memory of those dead—Lieut. Charles Stockley French, Capt. and Mrs. John, and Captain Bernard John—fallen in the great war. The window is the work of a young Irish artist, Mr. William McKeown.

The congregation at the dedication was not large, but the body of young soldiers, as well as some who held exceeding dear, that it was thought to keep the memory, of the dead, in the quietude of the church. The services were the Archibishop, the Rev. Dr. C. H. V. White, Chaplain in the Garrison King's Own Royal Regiment, the Rev. Canon G. G. Chapman, and the Rev. J. A. Robinson, Successor. Afterwards the organ and choir, with the Chorister, Dr. George, sang the hymns of the north, while the members of the choir sang the hymn, "Hark! the声 of the Lamb." The organist, Dr. Ernest, on the organ, and the organist, Dr. David and Chapter, then formally accepted the gift of the window, and the names of the last soldiers whose names are inscribed on it. The Archibishop next solemnly dedicated the window, and gave a short address. Great was the interest shown in the services like this, which bring up many memories, but few of the above may express more naturally the feelings of those who have been accepted into the business of repairing such losses as he may inflict.

SUBMARINES AND SHIPPING.

The submarine problem, says *The Times*, is one of the gravest with which we have been confronted since the war began. It must be faced calmly, and we are sure the civilian population will accept the facts as they stand, to which they must be subjected. At all costs we ought never to experience more than a fifth of the suffering from food shortage which the Germans have long endured, and meanwhile we may hope with some confidence that the Germans will be soon compelled to give up their submarine warfare.

Further successful raids have been carried out on the British front. At the Butte de Warincourt enemy dugouts were bombed, and a machine gun destroyed. Seven prisoners were taken, and there was also a raid east of Souchez, where much damage was done to the enemy's works. Our artillery also carried out bombardments of enemy positions.

In the Verdun region the Germans made a grenade attack against French trenches at Richebourg and the chateau. Afterwards the sky and earth, with the Chorister, Dr. George, sang the hymns of the north, while the members of the choir sang the hymn, "Hark! the声 of the Lamb." The organist, Dr. Ernest, on the organ, and the organist, Dr. David and Chapter, then formally accepted the gift of the window, and the names of the last soldiers whose names are inscribed on it. THE FUTURE OF THE HOHENZOLLERS.

The leading article in the Kaiser's birthday, says *The Times*, is all very well in tone, and no doubt the "discreet" reference to his benevolent proposal of peace, "is most interesting in the way in which practically all writers have begun to debate the future of the Hohenzollers." *Hansard* (Tuesday), for instance, has said, in order to humiliate Germany, our enemies would do us a wrong, we should not forget, what they like have done for us on far-off fields. They desire to penetrate the German lines early last night, east of Souchez, and did much damage to the enemy's works.

The Emperor's artillery was very active this afternoon in the neighbourhood of Richebourg.

Bulgarian Official.—Near Isacza there was

fire and artillery fire on our part of the enemy.

THE RIGA OPERATIONS.

The *Times* Petrograd correspondent telegraphed:

"The Russian offensive on the Riga front, and the subsequent counter-moves on the part of the enemy along our central and northern fronts, are still in progress, and a retrospective summary is permissible.

We bombarded the enemy's positions opposite Richebourg and east of Armentières.

Successful bombing operations were carried out by our aeroplanes on the night of 28th-29th inst., and again yesterday.

In the course of air fights three German machines were destroyed yesterday, and three others driven down damaged.

FRENCH OFFICIAL.

Yesterday's Paris communiqué:—

"On the left bank of the Meuse a grenade attack against one of our trenches in the region of Hill 304 was broken by our fire without other results than losses to the enemy."

To the north of Badonvilliers a German surprise attack failed. We took some prisoners.

The Upper Alsace our batteries showed themselves active in the region east of Soppe.

There was an intermittent bombardment on the rest of the front.

At Vrigne-aux-Bois during the daytime yesterday three German aeroplanes were brought down in aerial combat by our pilots.

Last night's despatch:—

Between Soissons and Rheims we stopped our fire, but we have two enemy aeroplanes active in the region east of Soppe.

THE PEACE NOTE.

DEBATE IN UNITED STATES SENATE.

(REUTER'S TELEGRAM.)

WASHINGTON, TUESDAY.

Mr. McMurphy, Republican, introduced a resolution to prohibit the entry of the United States into the war, while the Senate sympathised with President Wilson's efforts to secure a speedy termination of the war, it did not agree with the President's proposal for a general withdrawal.

Aviation.—During the night of January 25th-26th our aeroplanes bombed bivouacs in the environs of Etain, the military factories of Ham, and stations and factories of Ploembier and Hamy, and Athies, Honnecourt, and Archy.

AMSTERDAM, MORNING.

According to the *Faustische Zeitung*, owing to the frost, no fresh supplies of potatoes can be expected at Hamburg this week, and the price of flour will rise.

The Chancellor and members of the various Territorial Force Associations, whose splendid work in the great war has been clearly shown by their services to their country and to the Empire, are to be honoured at a dinner at the Royal Lancaster Hotel on Friday evening.
